## Product information *Xylophones*

**PSX 1003**

3.5 octave F4 - C8 Vibercore Synthetic

*\* please note that the image is not available yet*

A complete series of mallet instruments designed for the budget minded students, orchestras and ensembles. These instruments feature the same selected bar materials and carefully handcrafted resonators, which are used for the Custom Classic Series. The frames of these instruments are manufactured using European Ashwood and high grade steel components. Height adjustment of these models can be executed manual very easily.

To extend our line of xylophones from an efficient manufacturing standpoint, together with top quality, we designed our Performing Standard 1000 Series xylophones. This beautiful xylophone assembly is equipped with our unique Integrated Rail System (ICS). Very easy to break down and assemble through snap on rail attachment. .

Bars |

Bar Sizes: 40 x 16 mm

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

We designed the PSB 1000 build up system especially for the beginning mallet player. The table top xylophone (PSX 1001/2/3) can be purchased separate from the resonators and stand.

RANGE OVERVIEW

DIMENSIONS & WEIGHT

A = 146 cm | 57.5 inch  
B = 80 cm | 31.5 inch  
C = 31.2 cm | 12.3 inch
