CCM 8002

4.5 octave F2 - C7 Honduran Rosewood

Made in Holland | Used Worldwide

Custom Classic Series 8000 Series.

The Engineers of Vancore faced a great challenge designing this outstanding professional top quality 8000 series marimbas. As leading fact they choose for a pure and natural approach, combined with the latest technology available.

These marimbas featuring the finest in traditional craftsmanship and the very latest in material and design technology. First choice materials, equipped with our exclusive VCL lifting system for effortless height adjustment and a beautiful design, represents the exclusive quality of Vancore keyboard mallet instruments!

Bars | Honduran Rosewood

Material: Premium Selected Honduran Rosewood | Dalbergia Stevensoni

As a premium qualified manufacturer, we use the best available wood for manufacturing these premium marimbas. Carefully selection, dedicated drying procedures, CC drilling and shaping and precisely computer controlled tuning methods are ingredients leading to a combination of perfection and skills.

Bar Sizes | 71x27 | 65x27 | 58x25 | 53x25 | 48x25 | 44x23 | 40x21 mm

Floating Bar Suspension | FBS

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

Integrated Rail System

Our designers created a new and highly innovative concept to avoid the common and major problem with layers. On top of that, the barsuspension and layer are integrated. One solution, one unique concept!

Endpieces

To realize stable and precise constructions, we use high grade steel, and European Ashwood components. Rails and endpiece are very carefully designed to make that perfect match.

Height adjustable through our patented VCL System.

Lifting System | VCL

With just a 'press on the pedal' the height of the instrument can be easily adjusted. Comfort lifting resulting in a total free frame suspension, is realized by using durable gassprings to create an optimum of playing comfort.

Height Adjustable Resonators

After years of research our R&D team has chosen rectangular bass resonators which produce optimum resonance and projection in lower registers. These resonators are tunable now! Our skilled tuning experts expertly tune each bar to exacting pitch standards.

Resonator Clamp System

Vancore resonators are individually hand tuned and Vancore resonators are individually hand tuned and assembled using an exclusive mounting system. This system eliminates every kind of rattle. Unlike other resonators, welded or riveted, our system employs minimal contact technology, this eliminates potential problems.

Casters

All stands are equipped with double rolled casters for easy operation. Carefully chosen casters come with high grade bearings and brakes.

VANCORE 8000 SERIES: The ultimate Marimba in sound, construction and professional approach!
