PSV 2002

3.0 octave F3- F6 Graduated Satin Silver Finished Aluminum Alloy

Performing Standard Series

A complete series of mallet instruments designed for the budget minded students, orchestras and ensembles. These instruments feature the same selected materials and carefully handcrafted resonators, which are also used for the Custom Classic Series. The frames of these instruments are manufactured using European Ashwood and high grade steel components. Height adjustment of these models can be executed manual very easily.

Performing Standard 2000 Series | PSV 2002

The new PSV 2002 completes the range of the 2000 series vibes. Choosing the right bar material and heat treating the instrument stands for an optimum of quality in sound and projection.

The graduated bars are professionally sized, just like the 4000 series vibes and the barset has a beautiful natural "satin silver" anodized finish. The instrument is manual height adjustable and very easy to transport. The setup is supplied with a variable speed motor with a special build in control unit.

Endpieces

To realize the most stable and precise construction, rails and endpiece are very carefully designed to make that perfect match. All end pieces are made out of first choice solid Ash wood, carefully shaped and CC machined.

Inside the smaller end piece a cut out chamber gives space to the motor control unit to create an optimum in protection and ease of operation.

To achieve perfection in construction and quality we always keep an eye on the natural look of the mallet instruments. A little different but perfectly designed and engineered.

Vancore stands for more than innovation!

Bars |

Material: *Satin Silver Finished Aluminum Alloy*

Bar Sizes: 60x12 | 50x12 | 45x12 | 40x12 mm

Floating Bar Suspension | FBS

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

86 cm
109,5 cm

Height adjustment

Manual Height Adjustment

Height Adjustment of these models can be executed manual very easily.

Casters

Double casters with brakes | Heavy duty

RANGE OVERVIEW

DIMENSIONS & WEIGHT

- A = 146 cm | 57.5 inch
- B = 80 cm | 31.5 inch
- C = 38,5 cm | 15,2 inch
- D = Height adjustment from 86 cm up to 109.5 cm
Height adjustment from 33.9 inch up to 43.1 inch

Instrument Weight
