*3.5 octave F4 - C8 African Padouk*

## Performing Standard Series

A complete series of mallet instruments designed for the budget minded students, orchestras and ensembles. These instruments feature the same selected bar materials and carefully handcrafted resonators, which are used for the Custom Classic Series. The frames of these instruments are manufactured using European Ashwood and high grade steel components. Height adjustment of these models can be executed manual very easily.

## Performing Standard 1000 Series | PSX 1004

These unique marimbas are featured with our newly designed ICS system (Integrated Cord Suspension). The innovative frame has solid Ashwood end pieces and special designed steel layers. Precision lasercut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point. Professional sized bars, manufactured out of selected kiln dried quarter sawn first choice padouk or rosewood! Depending on model number you can also choose for Vibecore Synthetic bars. The suspension system is modular and functions as an integral part of an overall ergonomically designed instrument.

### Endpieces

To realize the most stable and precise construction, rails and endpiece are very carefully designed to make that perfect match. All end pieces are made out of first choice solid Ash wood, carefully shaped and CC machined.

Inside the end piece a cut out chamber gives room for a solid special metal sheet for perfect and sturdy mounting of the rails.

To achieve perfection in construction and quality we always keep an eye on the natural look of the mallet instruments. A little different but perfectly designed and engineered. Vancore stands for innovation!

### Manual Height Adjustment

Height Adjustment of these models can be executed manual very easily.

### Bars | African Padouk

Material: Concert Quality African Padouk | *Pterocarpus Soyauxii*

As a perfect alternative for Honduran Rosewood Vancore is using African Padouk as basic material for bar manufacturing. This African hardwood stands for a warm character and rich sustain. Through sizes of logs and availability of quarter sawn wood, the bars made out of African Padouk are representing a perfectly balanced marimba keyboard in performance and tonality.

Bar Sizes: 40x23 mm

### Resonator Clamp System

Vancore resonators are individually hand tuned and assembled using an exclusive mounting system. This system eliminates every kind of rattle or extraneous noise. Unlike other resonators, welded or riveted, our system employs minimal contact technology. This virtually eliminates potential problems.

### Integrated Rail System

Our designers created a new and highly innovative concept to avoid the common and major problem with layers..... On top of that, the suspension and layer are integrated. One solution, on unique concept!

When only the best is good enough!

### Floating Bar Suspension | FBS

Most notable is the new Floating Bar Suspension System (FBS). This proprietary bar support system actually increases bar resonance by 20%! Precision laser cut bar support arms are angled to insure that each and every bar is supported exactly to the nodal point.

### Casters

All stands are equipped with double rolled caster for easy operation.

Carefully chosen casters come with high grade bearings and brakes.

Height adjustment

85 cm  
108,5 cm

RANGE OVERVIEW

DIMENSIONS & WEIGHT

- A = 145 cm | 57.1 inch
- B = 80 cm | 31.5 inch
- C = 31.2 cm | 12.3 inch
- D = Height adjustment from 85 cm up to 108.5 cm  
Height adjustment from 33.5 inch up to 42,7 inch
